CHAPTER IV

CONCLUSION

Based on the previous chapter, it can be concluded in two points. First is about the characterization of the Little Price and the only one rose. Second is about the Little Prince and his only one rose are symbolized in *The Little Prince*.

The Little Prince's and his only one rose's characteristic represent certain categories of people in society. They are like a normal couple in the society. Their characterization are adapted from the society that male and female are in relationship. The Little Prince is characterized as an alien who acts and looks like a real male human and as a golden haired extraordinary little boy who is dressed like a prince. He has two different kind of characterizations but seems the same. The only one rose is described as a beautiful flower and as a beautiful female human who is vain and inconsistent like a real woman.

There are several the symbols which is arbitrary signs that shows the relationship between the Little Prince and his only one rose that is the symbol of little Prince itself, symbol of the only rose, and symbols of relationship between the Little Prince and the only one rose. The Little Prince is related to golden haired extraordinary small person who acts like a prince and looks like a real man even though he is an alien. In the other words, the Little Price is a symbol of a man. The only one rose is described as a flower and as a woman. In this case, the only one rose is symbolized as a flower and its meaning referents to a woman. Even though she is symbolized as a flower, her role is as the Little Prince's

woman. The relationship between the Little Prince and the only one rose symbolizes the relationship between a man and woman. Even though in the novel Little Prince is an alien with similar appearance to a little man, and the only one rose is a flower with the attitude of a woman, but their relationship related to human relationship. Their relationship is raising at the first and getting down when the Little Prince leaves the only one rose and raising again when the Little Prince realize that he is tamed by his rose and becomes responsible to her. It is referent to the real human relationship which has up and down. This study helps the researcher to open her eyes that in this life there are many symbolism. A symbol represents more than its literal meaning, it means to its referent. Hopefully, this study can boarder the readers' knowledge about symbolism and can be applied it into real life. It cannot be deny that in this life there are many symbols that has different meaning based on its referent. So that, the readers can recognize the real meaning of it and get better understanding of life.
