ACKNOWLEDGEMENT

First and foremost I would like to thank God. I praise, magnify, and glorify Allah almighty for enabling me to complete this study in a miraculously long period. You given me the power to believe in my passion and pursue my dreams. I could never have done this fuckin' study without the faith I have in you, the Almighty.

I feel so much relieved to have finally completed my thesis. It is a milestone moment for me. It would not have been possible to write this research without the help and support of the kind people around me, to only some of whom it is possible to give particular mention here.

Above all, I would like to thank my Mom for her personal support and great patience at all times. My sibling brother, Cak Karisun and Mr. Soe'ud who have given me their unequivocal and financial support throughout, as always, for which my mere expression of thanks likewise does not suffice.

This thesis would not have been possible without the help, support and patience of my advisor, Dra. Irma Soraya, M.Pd, not to mention her advice and unsurpassed knowledge of this thesis writing. Also, I would like to express my deep gratitude and respect to my second advisor, Rakhmawati, M.Pd., the valuable advice, genuine support, sincere comments which helped me a lot to finish this study and friendship of her has been invaluable on both an academic and a personal level, for which I am extremely grateful. My gratitude also goes to the head master and the

English teacher of MA Banu Hasyim, Waru who allowed me to conduct the research there.

My greatest appreciation and friendship goes to my closest friend, Maimuna, who was always a great support in all my struggles and frustrations in finishing my thesis. I have been fortunate to have friend such her who cherish me despite my eccentricities. Cheers to Maimuna for being a great reliable person to whom I could always talk about my problems and excitements. Thanks her for questioning me about my ideas, helping me think rationally and even for hearing my problems. I have really enjoyed working with you. You have taught me how good research should be done and together we managed to find ingenious solutions to baffling problems time and time again.

I have also been privileged enough to have supportive and motivating colleagues and friends. One of my most supportive colleagues during the past four years has been my craziest friend, Hashemi Nurahmad. From the very first semester we have been great friends and I can't begin to tell you how much you friendship and support means to me. You brought out the best and the worst in me. You loved me enough to confront, to challenge and to console. You encouraged me in my strengths and helped me overcome my weaknesses. Together with Maimuna, we have had an incredible adventure in our beloved campus and it is hard to believe that it is now coming to an end. Mai and Shemi, you are my fellas traveler.

Last, but by no means least, I thank my friends, Dewi Kotimah, your input has been invaluable. I thank you for your unending support, your willingness to help

solve any problem and your inspirational outlook on life. You have always had such incredible trust in me, which is one of the most important things a friend can have.

My sincere thank to you all for being there for me. May God richly bless the works of your hands.
