

CHAPTER V

CONCLUSION AND SUGGESTION

This chapter presents conclusion and suggestion drawn from research finding and discussion in the previous chapter. This chapter is divided into two parts. The first is conclusion and the second is suggestion.

A. Conclusion

Based on the result of the analysis in the previous chapter, researcher concludes:

1. In implementing Islamic materials, the researcher considers several things such as Islamic materials content to be delivered which is adapted to the context and knowledge of students. The method used is aligned with the topic. In addition, the Islam materials are presented in easy language. It is done in order the Islamic materials can be accepted well, and students' reading abilities can be developed or enhanced.
2. The progress of students' English reading skill while following learning English using Islamic materials is confirmed. The students' English reading skill can be developed. It can be seen at the students' score from pre-test to post-test. In each test, the students' score is always improved. In pre-test students have 63.07 that is lower than the result of first cycle 72.11. In the second cycle, the students' score is developed up to 75.19. And in third

cycle, the students' score is developed again up to 83,65. It means that the use of Islamic materials can improve students' reading skill.

3. The students really love when the teacher applies Islamic reading materials in teaching reading. Moreover, they do really like the topic chosen by the researcher so that they have a big curiosity to learn it deeper. Therefore, Islamic reading materials is good and makes the students interested in learning reading.

B. Suggestion

Based on the conclusion above, researcher suggests to:

1. Teacher

Researcher suggests English teacher especially for teacher who teaches on Islamic junior high school to use this material.

2. Next Researcher

To make this research perfect, researcher suggests to the next researcher to conduct such research using "research and development" research. Furthermore, to get another strength and weaknesses, researcher also suggests next researcher to conduct this research using other materials that are more suitable for students.
