Studi ini meneliti tentang penggunaan bahasa oleh penderita gangguan bipolar difilm "Silver Linings Playbook". Penelitian ini dilakukan untuk menjawab masalah berikut: Bagaimana penggunaan bahasa oleh penderita gangguan bipolar dalam film "Silver Linings Playbook" yang termasuk dalam gangguan bahasa? Jawaban atas pertanyaan ini dapat mengarah pada pertanyaan; (1) Apa macam-macam gangguan bahasa yang terjadi pada penderita bipolar dalam penggunaan bahasanya difilm "Silver Linings Playbook"? (2) Bagaimana perbedaan bahasanya penderita bipolar ketika bipolar dan non-bipolar?

Penelitian ini didasarkan pada gangguan bahasa. Kemudian, metodologi penelitian ini menerapkan metode penelitian kualitatif yang datanya dikumpulkan dari naskah film yang didownload di google dan peneliti membaginya menjadi beberapa adegan. Yang terakhir adalah analisis data; dianalisis berdasarkan dua jenis gangguan bahasa: (1) penurunan nilai bahasa reseptif, (2) penurunan bahasa ekspresif.

Hasil dari penelitian ini menunjukkan bahwa penggunaan bahasa oleh penderita gangguan bipolar difilm "Silver Linings Playbook" yang sering muncul ialah gangguan bahasa ekspresif (menampilkan semua kata-kata atau ide-ide dalam pikiran penderita gangguan bipolar). Tapi tidak mengesampingkan kemungkinan bahwa gangguan bahasa reseptif juga terjadi pada penderita gangguan bipolar. Akhirnya, penulis berharap penelitian ini dapat memberikan kontribusi bagi penulis selanjutnya yang tertarik dalam penggunaan bahasa oleh penderita gangguan bipolar yang termasuk dalam gangguan bahasa.
