

## ABSTRACT

Marantari, Putri Okta. 2016. *Word Formaiion Process On Slang Words Used By Teeneger In Blackberry Messenger*. Thesis. English Department, Faculty of Letter and Humanities, State Islamic University of Sunan Ampel Surabaya. Advisor: Endratno Pilih Swasono.

Key Words: Word Formation, Slang Words, Teenager, BlackBerry Messenger.

This research analyzes about word formation process. A Word formation process is the linguistics process making new words or term. So, the researcher interest to know about words formation process on slang words used by teenager in BlackBerry Messenger. The researcher used the study of George Yule (2006) as the reference of kinds of word formation processes.

In this research, the researcher uses descriptive qualitative method because the researcher take documentation in collecting data and textual analysis in analyzing data. The researcher finds ten kinds of word formation: those are coinage, borrowing, compounding, blending, clipping, backformation, conversion, acronym, derivation, and multiple process. There were 32 slang words found, there were four types of word formation process, namely blending (6,52%) , clipping (3,12%) , borrowing (9,38%) , multiple process (81,25%). Although the multiple process take a crucial part in forming slang words used by teenager in BlackBerry Messenger. It was the process of borrowing dominantly occurred in the multiple process.

At least, the researcher concluded that these phenomena showed that teenager were easy to absorb and accept English Because of international language. In addition, the dominant language in the social life has influenced in the process of borrowing in creating Indonesian slang words.

## INTISARI

Marantari, Putri Okta. 2016. *Word Formaion Process On Slang Words Used By Teeneger In Blackberry Messenger*. Thesis. English Department, Faculty of Letter and Humanities, State Islamic University of Sunan Ampel Surabaya. Advisor: Endratno Pilih Swasono.

Kata Kunci: Word Formation, Slang Words, Teeneger, BlackBerry Messenger.

Penelitian ini menganalisis tentang proses pembentukan kata. Sebuah proses pembentukan kata adalah proses linguistik membuat kata-kata baru atau istilah. Jadi, peneliti tertarik untuk mengetahui tentang proses pembentukan kata-kata slang yang digunakan oleh remaja di BlackBerry Messenger. Peneliti menggunakan studi George Yule (2006) sebagai acuan jenis proses pembentukan kata.

Dalam penelitian ini, peneliti menggunakan metode deskriptif kualitatif karena peneliti mengambil dokumentasi dalam mengumpulkan data dan analisis tekstual dalam menganalisis data. Peneliti menemukan sepuluh jenis pembentukan kata: mereka adalah penciptaan, pinjaman, peracikan, pencampuran, kliping, backformation, konversi, singkatan, derivasi, dan proses campuran. Ada 32 kata-kata slang ditemukan, ada empat jenis proses pembentukan kata, yaitu pencampuran (6,52%), kliping (3,12%), pinjaman (9,38%), beberapa proses (81,25%). Proses campuran mengambil bagian penting dalam membentuk kata-kata slang yang digunakan oleh remaja di BlackBerry Messenger. Jadi, pinjaman yang dominan terjadi dalam proses campuran.

Setidaknya, peneliti menyimpulkan bahwa fenomena ini menunjukkan bahwa remaja yang mudah menyerap dan menerima English Karena bahasa internasional. Selain itu, bahasa yang dominan dalam kehidupan sosial telah mempengaruhi dalam proses peminjaman dalam menciptakan kata-kata slang Indonesia.
