

sometimes don't think about how a language is formed. There are millions words now used by people. Everytime people get more and more new words unless they know the way it happens. In this research, the writer tries to find the mechanisms or processes of word formation and finally can be used in human's life. Besides, word form has deep relation with meaning. The meaning of the new word form is influenced by the process of forming a word. This process is usually called word formation process.

Slang allows a person to become creative in the use of language. Some people use slang in order to communicate with each other informally. Similarly, people using slang are able to identify other members of their subculture easily. One of the reasons slang is around is that people believe that by using slang they will be able to set themselves apart from others and be unique. So, the researcher choose this topic because the researcher excited with the type of word formation process on slang words and the meaning of slang words used in BlacBerry Messenger.

Trinugraheni Kristyani Putri (2006) her research is entitled "Analisis proses pembentukan slang padalagu 50cent dalam album Get Rich or Die Trying". In her research she tried to classify and describe slang words appear in 50cent song in album of "Get Rich or Die Trying". It is a kind of descriptive qualitative research. She used eight kinds of word formation process from Fromkin and Rodman (1998:82), Katamba (1993:47-54), Yule (1985:52-55), O'Grady and Guzman (1996:143-163), Quirck, Greenbaum, Leech and Syartvik (1985:1567-1583). After analyzing the data,

she found that coinage is the mostly occurs in the data. Coinage as a process when a new word is needed but there are no appropriate borrowed word and native word to express it. Other processes that appear are compounding, clipping, conversion, blending, abbreviation and derivation. There are totally 96 slang terms appear in the data.

Christina Helen Wydiasari (2011) her study is entitled "Word formation analysis on slang words in the Indonesia Teenager's novel". It is a case study of Indonesian slang words used in Lupus novels, the edition of 2000 to 2003. In her research, she used SimakBebasLibatCakap (SLBC) technique by Arikunto in collecting the data and Agih method by Sudaryanto in analyzing the data. While as the main theory, she took ten categories of word formation processes by Hatch and Brown (1995), Francis Katamba (1993), and O'Grady (1996) to categorized the data. From her research she found that there are eight strategies of word formation process, which are undergone by Indonesian slang words used in Lupus novels. They are borrowing, coinage, compounding, initialization and acronym, blending, clipping, inflection, and derivation. Based on the findings, there are 125 slang words that are used in Lupus novels, the edition of 2000 to 2003. She found that the process of borrowing is the most common process that is used. It is easy to see this in the mutation of Indonesian words borrowed by other languages. It takes 76% of total slang words or 95 from 125 slang words. This study just focus on borrowing process, because it can show that the word has combined with the other language. So, the reader of this study will know more about slang words with borrowing process.

Verawati BR Sitio (2011) her research is entitled “The word formation process and domain analysis of slang in Anak Kos DodolKumatLagi”. Besides finding out kinds of word formation and explaining the word formation process of slang, the writer also describes the domain factors of slang. In classifying and explaining the word formation process the writer used theory from O’Grady and Guzman, Hatch and Brown, and Kridalaksana. In describing the domain factors of slang, she used theory from Fishman (1970:20). In the result of this research the writer conclude that there are nine kinds of word formation occur in the data, they are borrowing, blending, compounding, clipping, abbreviation, backformation, coinage, onomatopoeia and derivation. From those kinds of word formation, borrowing becomes the most one found in this novel. In addition, in this research, by the domain analysis, the writer found two kinds of domain; they are friendship and family domain. In the analysis step, it also can be seen that three main factors namely participant, setting and topic take an important role of classifying the domain group.

In this research, the writer limits on the words analysis as a part of language. Word as a part of language has important rule in forming a language. People always use it to build a sentence, but they don’t know where do actually those millions words come from. People as the user of language sometimes don’t think about how a language is formed. There are millions words now used by people. Everytime people get more and more new words unless they know the way it happens. Besides, word form has deep relation with meaning. The meaning of the new word form is

the United States, teenagers from the ages 13-14 go to middle school while teenagers from the ages of 14-18 typically go to high school. In the United Kingdom (UK); teenagers and non-teens are mixed in secondary school. Teenagers attending secondary school (high school in the US) generally graduate at the age of 17 or 18.
