

CHAPTER V

CONCLUSION AND SUGGESTION

A. Conclusion

Based on the research findings and discussion to answer the statement of problems that have been described in chapter I, the researcher concludes several points as follows:

1. There are some habits applied by female students in Islamic boarding school at the eighth grade of SMP Progressive Bumi Sholawat in reaching their academic achievement in learning English. The study habits that female students apply in Islamic boarding school can be concluded as follows:
 - a. Environment is important to create the students' character and motivation in reaching their success. By students staying in dormitory, this condition will give the great environment in supporting students to learn their material lesson. They have suitable place for studying and many resources can help them to find some difficulties about their material.
 - b. Reading activity is an obligation activity to be obeyed by the students because the committee of Islamic boarding school has been arranged this activity in the daily schedule. Based on this activity, students can also build their habits to take a note about something important that they read. Therefore the students can build their success with improving these habits for having the new knowledge.

- c. Planning of subject has been applied by some female students at the eighth grade students in SMP Progressive Bumi Sholawat. Those habits can give effect in their learning process. Furthermore, by planning the subject that will learn in the classroom, they will be more active and understood during learning process in the class with their teacher.
 - d. The place for studying is needed to be constructed in having comfortable and concentration in their study time. The committee of Islamic boarding school must be though the way to solve this problem.
 - e. Preparation of examination in this school needs the students' motivation to learn the material that provided by their teacher. Furthermore, they have been gotten the material from their teacher, students need to review and study hard to get the best score in their test.
2. The chief of language coordinator have important role to reach students' academic achievement. In managing the rules, systems and programs in English, the chief of language coordinator can interact the students more interesting and to have great motivation in learning English.
 3. The organized study habit can increase students' ability with having motivation from their teacher or the chief of langugae coordinator in creating their own habit.

There are some students that can motivate their friends to be applied the same habit in increasing their knowledge and ability when learn English in order to get the best achievement. Based on the research, the effective study habit does not

only focus on environment or their preparation when study, but also focus on their motivation and willingness to reach their goals in learning English subject.

B. Suggestion

After conducting the research about study habit of female students in Islamic boarding school at the eighth grade of SMP Progresif Bumi Sholawat Sidoarjo, the researcher suggests some important things, as follows:

1. For the next researcher

The topic is never to discuss in English Education Department about study habits in learning process. Knowing the important of students in organizing their habits, the researcher motivates to analyze deeply about this topic. The researcher hopes that the next researchers can develop the information dealing with the effect of students' study habit in learning English at Islamic boarding school. If the comparison of study habit about the place or sample has been found by many researchers, the study habit of female students in Islamic boarding school to reach their academic achievement has done by the researcher. Therefore, there will be rich knowledge about study habit.

2. For the chief of language coordinator

Based on the research which is conducted by the researcher, the chief of language coordinator's role is important to arrange the quality of English language in this school. The researcher hopes the chief of language

coordinator can manage the system and quality of language program in supporting the students' willing to reach their academic achievement.

3. For the students in SMP Progressive Bumi Sholawat

Study habit that applied in Islamic boarding school is implemented in student's daily schedule. Based on the research, the researcher found that some of students has been implemented that effective study habit. Therefore, the researcher hopes that students with the effective study habit can effect or motivate to other students in implementing study habits.

4. For the readers

The main goal of writer conducts this thesis is to give information for readers about how study habit of female students in Islamic boarding school. Based on the best of the researcher's knowledge, arranging good study habit is not an easy thing; therefore the researcher wants to provide any information about the effective study habits. The researcher hopes that this information is useful for the readers and it can improve their knowledge about this topic. Moreover, in the future the readers can take a part in developing much information to build people awareness about the important of arranging study habit to reach students' academic or non-academic achievement.
