## **CHAPTER V**

## CONCLUSION AND SUGGESTION

## **5.1 CONCLUSION**

Metaphor is not only a linguistic phenomenon which shows the usages of figurative language, but metaphor also shows the concept of thinking and used widely pervasive in everyday life. Therefore, the word choice of writer news is not random, but it has a certain structure basd on everyday experiences, background knowledge and culture.

Metaphor that are found in factual report such as sport news and in this research was focused on FourFourTwo football online news magazine, shows that the used of metaphori is very flexible. There are four concepts in UEFA Champion League news are revealed through the analysis of conceptual metaphor using mapping process. They are FOOTBAL MATCH IS WAR, ATTEMPTING HUNTING, GOALS TO SCORES IS ARE GOLD, **FOOTBALL** COMPETITION IS A JOURNEY. The meaning of metaphor also revealed from the mapping process which shows the relation betwenn source domain and target domain to get an easier understanding in interpreting metaphor. The function of metaphor also revealed by using leech theory, but only 3 of 5 functions used in the text.

From the mapping process of the concepts in UEFA Champion League news. It can be sen that metaphor has been used by news writer as a tool in writing in order to make such impression in the interpretation of the reader. This metaphor

facilitates the news writer in FourFourTwo when explaining the football match condition, so that the reader can imagine and understand the news easily.

## 5.2 SUGGESTION

Metaphor is not only a matter of meaning, but it is also related to the concept that grounded from cognition. This relation to cognition is pervasive in daily experiences based on the culture until sometime metaphor has been used unconsciously. So we have to focus when finding the right metaphorical expression to consider it as metaphor. Dictionary will help us to recognize which are metaphor contained in text, because some words are remaining as literal langage. As foreign lerner of English we cannot guess the meaning of words by ourselve, we need dictionary to guide us in interpreting non-literal meaning such as metaphor.

This research used UEFA CHAMPIONS LEAGUE news from FourFourTwo which is the starting point of the study. Futher analysis will be very possible using another data to get deeper and broader analysis. There are a number of conceptual metaphor analyses in factual report or literary work that has been analyzed, but there is still imited analysis which use song lyric or song title as the data source.

In the sport new, theory of conceptual metaphor used to convey the concept of metaphor that leads to understand the meaning of metaphor. Meanwhile, in song lyric we can also use this theory in order to know what the lyric is actualy talking about. Therefore, this suggestion may give another opportunity to analyze broader research using conceptual metaphor as the theory.
