

and opinion using the target language. They are brought to the good condition. This is very important in order to avoid the feeling of boredom and the loss of motivation. In order to the English teaching is successful, there are several factor to be considered. The first factor is teachers. They are influencing factors in teaching learning process. Teachers are expected to be able to teach even if they are given worst condition by the students, designed techniques, and the absence of media.

Although English has been taught for many years, there are still many problems in teaching and learning English. It is because English is not our native language. Especially in speaking class there are many problems that had been around by teacher and student in teaching learning process of speaking. In fact, many students of senior high school are not good enough in speaking. Students face many difficulties to speak in the target language, because they often make mistakes such in the generic structure and significant lexicon grammatical features, although the teacher has explained it well. Moreover, they are not able to express their ideas well.

In the reality students has bad speaking ability. Many senior high schools graduated are not good enough in speaking ability. Actually one of the purposes in teaching learning is making the student have good speaking ability. But that is not success many caused make the student haven't good speaking ability like vocabulary, pronunciation and so on. So the teacher must know the student problem and to overcome their problems. teacher usually

blame the student about their problem so the researcher do this research to give the information about the problem faced by teacher and student in teaching learning process of speaking.

The researcher chooses MA Darul Ulum, because MA Darul Ulum represents another school in speaking ability. It mean that student in another school has same problem in speaking. In MA Darul Ulum there is good program in English like English course after school. But when the researcher asks one of the teachers, the teacher said that students in MA Darul Ulum have problem in speaking English. And the teacher said that student in MA Darul Ulum usually used Indonesian language in daily life. The proof that MA Darul Ulum represent another school that have same level is when the researcher give interview to the teacher from other school. He or she said that their student have problems in speaking ability. They said that very difficult to make the student active in speaking class. Its mean those, MA Darul Ulum represent other school that has same level in student speaking.

The purpose why the researcher does this research is because to know the problem faced by teacher and student is very important. And for the teacher, to know the student problems is very important, because the teacher can know what the student difficulties. After that teacher can make or used the appropriate techniques to overcome student problems.
