B. Suggestion

This study has focused on teacher and student problems in teaching learning process of speaking in MA Darul Ulum Waru Sidoarjo. There was interesting problems related to this study such us: student feels afraid to express their idea and student passiveness in the class. But still there was interesting problems, problem that must be know for teacher were in the third grades student there were new problem. They have bad speaking ability because they just focused in prepared UAN. And for the next researcher, to face other problems and describe the problems in the third grades student. Is UAN having big influence with speaking ability? So for the next researcher, to prove it. And to make the classification based on the result of the study as a physical, social and so on.
