

## ABSTRACT

Andhira, Didin Fitria. 2014. *A Study of Women's Speech Features of A Main Character in Iron Lady Movie Used by Phyllida Lloyd*. English Department, Faculty of Humanities, the State Islamic University Sunan Ampel Surabaya. Advisor: Murni Fidiyanti, M.A

Key Words : Women's Speech Features

---

This study is a sociolinguistic study which focuses on the women's speech features, those are some certain features that are commonly used by women than men in the way they are speaking. The study focuses on analyzing women's speech features used by the main character in "Iron Lady" movie. The objectives of this study are two problems. The writer focuses on what are the women's speech features used by the main character in Iron Lady and what are the dominant women's speech features used by the main character in Iron Lady. The data are obtained through movie "Iron Lady". The writer uses descriptive-qualitative approach to capture the language choice.

Through the analysis, it is found that there are nine types of women's speech features that used by main character, while one isn't found. That is specialized vocabulary (precise colors term). It can be found that in spite of called as The Iron Lady and Woman Prime Minister, she still has femininity side as women in common. The dominant type of women's speech features used by a main character is *Intensifier*.
