

CHAPTER V

CONCLUSION AND SUGGESTION

In this chapter, the researcher presents the conclusion and suggestion related to the research finding and discussion.

A. Conclusion

Based on the research finding and discussion on chapter IV, The conclusion is 52 % of the speaking materials in course book designed by students in IMALT class is relevance with the basic competence in curriculum 2013. Based on table categorizing of course book quality, the speaking materials in course book designed by student in IMALT class is fair. The speaking materials in course book designed by students in IMALT class cover showing introduction, time, identity, profession, and name of animal, building and object.

B. Suggestion

Based on the result of this research, the researcher recommends some suggestion to the following:

For the teacher

Teachers have to pay attention on basic curriculum before choosing course book for their students.

For further research

This research can be reference for further research especially course book analysis research in other skills.

For lecturer in IMALT class

This research can motivated them to make student be more creative in developing materials especially English subject.

For students in IMALT class

This research can improve their skill in developing course book which is relevant with the curriculum.
