ABSTRACT

Junior, M. B. (2024). *The Use of Inflectional and Derivational Affixes in Lyrics of Californication Album by Red Hot Chili Peppers*. English Literature Department, Faculty of Adab and Humanities, UIN Sunan Ampel Surabaya. Advisors: (I) Tristy Kartika Fi'aunillah, M.A., (II) Endratno Pilih Swasono, M.Pd.

This research aimed to analyze the inflectional and derivational affixes found in the lyrics of the *Californication* album by Red Hot Chili Peppers. There are two research objectives: to find the word formation process of inflectional and derivational affixes found in the lyrics of *Californication* by Red Hot Chili Peppers and to find the dominant value between inflectional and derivational affixes used in the lyrics of *Californication* by Red Hot Chili Peppers.

The research used a qualitative approach. The qualitative technique is used to uncover inflectional and derivational affixes in the lyrics of *Californication* by Red Hot Chili Peppers. This research's data are English words containing inflectional and derivational affixes. The technique of collecting data is obtained by downloading song lyrics from music sites and then reading and identifying words that indicate inflectional and derivational affixes in song lyrics. After acquiring the data, the data analysis is carried out by determining and classifying words that possess inflectional and derivational affixes in song lyrics by creating data tables and compiling the word formation process. Lastly, the researcher compiled the results and made conclusions.

The result of this research showed that derivational affixes are discovered more than inflectional affixes in song lyrics. There are 85 derivational affixes with 51% percentage and 82 inflectional affixes with 49% percentage. Derivational affixes has 11 types of processes that change the word class. The most common process found is the verb-to-noun, which amounts to 26 words in all song lyrics. On the other hand, the type of affix inflectional commonly found in a noun's plural amounts to 29 words. The result reveals more derivational affixes than inflectional affixes, with only a slight difference value.

Keywords: Morphology, inflectional affix, derivational affix, song, lyrics

Program Studi Sastra Inggris, Fakultas Adab dan Humaniora, UIN Sunan Ampel Surabaya. Pembimbing: (I) Tristy Kartika Fi'aunillah, M.A., (II) Endratno Pilih Swasono, M.Pd.
