ABSTRACT

Wijayanti, Destivia Tri, “*The Role of the United Nations Children’s Fund (UNICEF) in Fulfilling the Rights of Ukrainian Child Refugees in Poland During the Russia-Ukraine War in 2022*”. Universitas Islam Negeri Sunan Ampel Surabaya, 2024.

This research aims to discuss the role of UNICEF in fulfilling the rights of Ukrainian refugee children in Poland during the Russia-Ukraine war in 2022. With Poland receiving the largest number of refugees, including children, the Polish government is unable to handle the situation on its own without the intervention and assistance from other organizations. Therefore, UNICEF is involved in Poland. The method used in this research is qualitative-descriptive, with data collection through documentation analyzed using Miles and Huberman's analysis techniques. Based on field data, the researcher found three roles of UNICEF in fulfilling the rights of Ukrainian refugee children in Poland, namely: first, UNICEF's role in bridging Poland's interests in fulfilling the rights of Ukrainian refugee children in Poland; second, UNICEF formed discussion forums with the Polish government and held conferences with several partners to discuss cooperation; third, UNICEF acted independently by providing humanitarian assistance.
