## **ABSTRACT**

*This thesis discusses the Islamic financial literacy index in East Java. The research objectives are to analyze the dimensions that shape the Islamic financial literacy index and measure the level of Islamic financial literacy in East Java. To identify geographic influences on the Islamic financial literacy index in East Java. To identify demographic influences on the Islamic financial literacy index in East Java. To identify sociographic influences on the Islamic financial literacy index in East Java. To simultaneously analyze the geographic, demographic, and sociographic influences on the Islamic financial literacy index.*

*The research used a quantitative descriptive explanatory research approach. The population in this study was all residents of East Java, with a sample size of 400. Sampling was conducted using random sampling. For the analysis process, the researcher used SPSS 25 software as a research tool. This study employed the Mann-Whiney Test and the Kruskal-Wallis Test. For simultaneous testing, multilinear regression was used.*

*The research results indicate that the Islamic financial literacy index in East Java consists of seven dimensions. The dimensions of the Islamic financial literacy index are Islamic financial behavior, Islamic financial knowledge, Islamic financial attitudes, Islamic financial awareness, Islamic financial skills, Islamic financial beliefs, and Islamic digital financial literacy. The Islamic financial literacy index in East Java reached a score of 59.2625, in the "sufficient" category. Geographical, demographic, and sociographic factors significantly influence the Islamic financial literacy index.*

*Keywords: Islamic Financial Literacy, Index, Geographic, Demographic, Sociographic.*
