ABSTRACT

Mudzalifah, L. (2024). *Word Formation Processes of Football Registers: A Case Study of The AFC U-23 Indonesia Vs. South Korea Match*. English Literature Department, Faculty of Adab and Humanities, UIN Sunan Ampel Surabaya. Advisors: (I) Endratno Pilih Swasono, M.Pd., (II) Dr. Mohammad Kurjum, M.Ag.

The purpose of this study is to analyse the word formation processes and essential meanings of the *register* used by commentator during the Korea Republic vs. Indonesia quarterfinal match in the *AFC U23 Asian Cup Qatar 2024*. A descriptive qualitative research approach was employed to conduct this study, supported by Halliday's (2004) *register* theory to analyze the data.

The data for this study were obtained from full match videos available on the AFC Asian Cup YouTube channel. The researcher meticulously watched the match multiple times to gather data and thoroughly understand the flow of the game. The commentator's speech was transcribed, and the accuracy of the transcription was verified through repeated listening. The focus of this research was to identify and classify the linguistic register forms used during critical moments of the match between South Korea and Indonesia. These forms were categorized based on word formation processes by Yule (2010). Those are coinage, borrowing, compounding, blending, clipping, backformation, conversion, acronym, derivation and multiple processes.

A total of thirty(30) data points were identified across different word formation processes. The most dominant word formation process found in this research is the compound process with eighteen (18) data. then conversion four(4) data, acronym three(3) data, clipping two(2) data. Then each borrowing, derivation, and multiple process one(1) data. The findings highlight the effectiveness of using concise and precise language to maintain a smooth and relevant narrative flow. This approach allows commentator to help viewers comprehend critical moments in the match without losing focus on the ongoing action. Additionally, the use of these terms demonstrates the commentator's linguistic skill in selecting appropriate language to describe actions on the field clearly and effectively, enhancing the overall viewing experience for the audience.

Keywords: register, football commentator, asian football confederation(AFC), word formation process

ABSTRAK

Mudzalifah, L. (2024). *Proses Pembentukan Kata dalam Register Sepak Bola: Studi Kasus AFC U-23 Indonesia Vs. Pertandingan Korea Selatan*. English Literature Department, Faculty of Adab and Humanities, UIN Sunan Ampel Surabaya. Advisors: (I) Endratno Pilih Swasono, M.Pd., (II) Dr. Mohammad Kurjum, M.Ag.

Tujuan dari penelitian ini adalah untuk menganalisis proses pembentukan kata dan makna penting dari register yang digunakan oleh komentator pada pertandingan perempat final Republik Korea vs Indonesia di Piala Asia AFC U23 Qatar 2024. Pendekatan penelitian deskriptif kualitatif digunakan untuk melakukan penelitian ini, didukung oleh teori register Halliday (2004) untuk menganalisis data.

Data penelitian ini diperoleh dari video pertandingan penuh yang tersedia di saluran YouTube Piala Asia AFC. Peneliti dengan cermat menonton pertandingan tersebut beberapa kali untuk mengumpulkan data dan memahami alur permainan secara menyeluruh. Pidato komentator ditranskripsikan, dan keakuratan transkripsi diverifikasi melalui mendengarkan berulang kali. Fokus penelitian ini adalah mengidentifikasi dan mengklasifikasikan bentuk register linguistik yang digunakan pada momen kritis pertandingan antara Korea Selatan dan Indonesia. Bentuk-bentuk ini dikategorikan berdasarkan proses pembentukan kata oleh Yule (2010). Itu adalah pembuatan koin, peminjaman, penggabungan, pencampuran, kliping, pembentukan belakang, konversi, akronim, derivasi, dan berbagai proses.

Sebanyak tiga puluh (30) data diidentifikasi di berbagai proses pembentukan kata. Proses pembentukan kata yang paling dominan ditemukan dalam penelitian ini adalah *compounding* dengan jumlah dua puluh dua (22) data. kemudian *conversion* empat (4) data, *acronym* tiga (3) data, *clipping* dua (2) data. Kemudian setiap *borrowing*, *derivation*, dan *multiple process* satu (1) data. Temuan ini menyoroti efektivitas penggunaan bahasa yang ringkas dan tepat untuk menjaga alur narasi yang lancar dan relevan. Pendekatan ini memungkinkan komentator membantu pemirsa memahami momen-momen penting dalam pertandingan tanpa kehilangan fokus pada aksi yang sedang berlangsung. Selain itu, penggunaan istilah-istilah ini menunjukkan keterampilan linguistik komentator dalam memilih bahasa yang tepat untuk menggambarkan tindakan di lapangan dengan jelas dan efektif, sehingga meningkatkan pengalaman menonton penonton secara keseluruhan.

Kata Kunci: register, komentator sepak bola, konfederasi sepak bola asia (AFC), bentuk linguistik
